SUMMARY

Community and advocacy leader with 15 years in developer tools, the last 8 at a company running self-serve and enterprise sales motions side by side. I run a 26 person community and advocacy function across North America, EMEA, and APAC, with programs measured on retained users and paid expansion rather than event counts. Built a champions program that turns power users inside customer accounts into internal advocates that Sales and CS plan around.

CORE SKILLS

Measurement: activation and retention cohorts, community attribution, usage segmentation, QBR reporting; Amplitude, Looker, Snowflake, Common Room, Salesforce, Gainsight.
